## Announcements

## **Publications Available:**

1. Thanks to Dr. Edith Gilmore for translat-ing two German articles dealing with dream lucidity:

Schnieing, K. Dreams of flying and excur-sions of the ego. <u>Archiv fur die Gesamte</u> Psychologie, 1938, 100, 541—554;

von Moers—Messmer, H. Dreaming while knowing about the dream state. <u>Archiv fur die Gesamte Psychologie</u>, 1938, <u>102</u>, 291—318.

They are now completed and copies are available for the cost of postage and handling and a small translators fee. Send \$3.00 to Dr. .Jayne Gackenbach, De-partment of Psychology, University of Northern Iowa, Cedar Falls, Iowa 50614.

Dr. Gilmore writes regarding her experience in translating these manuscripts, "Working on the material has helped co stimulate my own lucidity. I am sure now that any kind of "immersion" in lucidity during the day tends to cause it at night."

2. Copies of Dr. Keith Hearne's 418 page Ph.D. thesis titled 'Lucid dreams: an electrophysiological and psychological study' (May, 1978), are available from the author. Price on request. Dr. Keith Hearne, Hearne Research Organization, P.O. Box 84, Hull, England, HUl 2EL.

## **Organizations**:

1. Dr. Keith Hearne, writes, "as a pioneer in experimental lucid—dream research who has made theoretical and practical contribu-tions to the field, I have set up the Hearne Research Organization in England. It has an international scope and its pur-pose is to advance the scientific investi-gation of certain phenomena. At this stage, dreams—including lucid dreams—are its main interest. Persons who join the Organization's 'dream club' undertake to perform a series of experiments at home—many of them involving the use of his dream—machine invention, which not only increases dream recall in users but also induces lucidity in many subjects. It is anticipated that the project will constitute by far the largest study of dreaming ever conducted. Membership is a little restricted at the moment, but persons the U.S. or elsewhere wishing to join the dream club should write to: The Heart Organization, P.O. Box 84, Hull, England HU1 2EL. There is a membership fee (covering the administration of detailed questionnaires and psychological tests; feedback literature, etc.), and the experimental dream—machines are available, extra cost, through the Organization to members only. Full details on request.
