

Letter from the Editor

About a year ago when I was embarking on my editorial duties for the Association for the Study of Dreams I was uncertain whether I would continue with Lucidity Letter beyond 1984. I have now put out two issues of the ASD Newsletter and realize that there is still a need to keep a written network open for those interested in dream lucidity. Thus, I have decided to continue with Lucidity Letter. Additionally, it has become apparent that it is a financially feasible project. However, I will go to a biannual format beginning in 1985 with the newsletter to come out in June and December. Deadline for receipt of materials will be May 1 for the June issue and November 1 for the December issue. There will be one more issue in 1984 which will come out in December with a November 1 deadline for receipt of materials.

Subscription for 1985 is \$10 and past issues through 1984 are available upon request for \$3. Please fill out the subscription form below and return it to me if you are interested in receiving Lucidity Letter in 1985.
